CORBETT TREMBLES.

Fears he will be Arrested in Texas.

Fitzsimmons About Leaving and Brady will get Corbett Out.

Father Discouraged at Opposition of Governor of Arkansas.

WASHINGTON, Oct. 11. If any attempt is made to occupy any government lands for the Corbett-Fitzsimmons fight, Secretary Smith has instructed the government authorities at Hot Springs to prevent the fight taking place. The secretary said today he would grant no permit for a fight, and if any lessees of government land granted permission to the managers of the fight to have it take place on his land, his lease will be speedily revoked.

The Indian bureau received a telegram today from Chief Perryman of the Creek Nation asking permission to have boxing and other athletic sports in the nation. The Indian bureau officials are puzzled about the telegram owing to recent events in that country and telegraphed Agent Wisdom at Muscogee, I. T., to ascertain the purport of it. He replied that the request of Chief Perryman was in regard to the Corbett-Fitzsimmons affair, and under instructions from the Interior Department he had taken steps to prevent the fight on any of the lands of the civilized tribes.

Hot Springs People Believe the Fight Can be Pulled Off There.

HOT SPRINGS, Ark., Oct. 11. Circuit Judge Duffie called the sheriff before him to-day and informed him that it was the sheriff's duty to take proper measures to prevent the Corbett-Fitzsimmons contest from taking place in Garland county and advised him of his powers in the premises. When the sheriff asked when and how he should proceed to do this the judge failed to instruct him, saying he would confer with the prosecuting attorney and instruct him later. This talk of Judge Duffie seems to have had no preceptible effect on the people most interested and no importance is attached to it. There is no apprehension locally that anything radical will be done.

Driving Bruisers out of Texas.

SAN ANTONIO, Texas, Oct. 11. Advices were received to-day that the Travis county grand jury would return indictments against Corbett and Fitzsimmons and Manager Brady has decided to get Corbett out of the State as soon as possible.

Brady left to-night for Hot Springs where he will ascertain whether the fight can be pulled off there; if he finds it can, he will secure training quarters and the champion's entire party will be removed to the new battle ground within the next few days.

Corbett is very despondent over the outlook. The unlooked-for opposition of Gov. Clarke makes it doubtful whether the fight can be pulled off at Hot Springs.

FOREIGN NEWS.

Lord Sackville Gets Peevish and Wishes He Hadn't.

LONDON, Oct. 11. A representative of the United Press called upon Lord Sackville this afternoon, and asked him if he had anything to add to the statements contained in the pamphlet recently issued by him concerning his experience while British minister to the United States. His Lordship refused to furnish a copy of the pamphlet for minute perusal by the reporter or to discuss its contents. The pamphlet, he said, was printed for private circulation among his friends and did not concern the public in the least.

All the public were interested in knowing was contained in the Blue Books, easily accessible. More than this he had nothing to say on the subject. Lord Sackville refused to explain the motive which induced him to circulate the pamphlet and the manner in which he spoke indicated a considerable degree of mental uneasiness. It was not by any means the manner of a man who congratulated himself upon having issued such a brochure, but rather provoked the inference that he had for some reasons wished he had not.

A Scorcher for Lord Sackville.

LONDON, Oct. 11. The Daily Telegraph says: "A very foolish, ill-mannered, ill-timed, ill-made pamphlet was issued by Lord Sackville with the purpose of injuring the reputation of Mr. Bayard, now the United States Ambassador, charging him with being a political trickster and a consistent and determined enemy of England. The whole thing is so full of thoughtless bitterness that it is not worth while to reproduce any part of the brochure. We only hope the common sense and practical judgment of the English and American public will treat this uncalled-for attack with contemptuous disdain.

"Those concerned with diplomatic history will be the first to assure Mr. Bayard that no effect whatever is likely to be produced by such a series of charges, so utterly unworthy of attention or consideration. During his sojourn here Mr. Bayard has earned golden opinions for his urbanity and keen judgment of affairs and above all made studious efforts to cultivate an amicable feeling between England and America. Through him the English are learning a fuller appreciation of and higher admiration for the great republic."

Self-Fed

You are weak, "run-down," health is frail, strength gone. Doctors call your case anæmia—there is a fat-famine in your blood. Scott's Emulsion of cod-liver oil, with hypophosphites, is the best food-means of getting your strength back—your doctor will tell you that.

He knows also that when the digestion is weak it is better to break up cod-liver oil out of the body than to burden your tired digestion with it. Scott's Emulsion does that.

THE CLOSING DAY

Of Session of Women's Clubs at Augusta.

Mid-Winter Meeting of Federation to be Held in Orono.

Bangor Ladies Honored and Prominent in the Meetings.

AUGUSTA, Me., Oct. 11. The closing session of the Maine Federation of Women's Clubs was held today, the final adjournment being reached about 1 o'clock. The large attendance continued. The committee on resolutions appointed consisted of Mrs. Frye, Mrs. Kyes and Mrs. Thissell. The ladies arose and greeted delegates from the new clubs just admitted, the delegates responding. A credential committee reported 114 delegates present, with 93 visitors, while some 53 different clubs in all were represented. Ninety seven delegates responded to the roll call.

Mrs. H. M. Estabrooke, the secretary, extended an invitation in behalf of The Whittier, the Woman's Literary and the Island Reading Clubs, of Orono, to the board of directors to hold the mid-winter meeting of the Federation at Orono and the invitation was accepted.

On motion of Mrs. Estabrooke, the following delegates were appointed to attend the Atlanta Exposition: Mrs. Alice H. Briggs, Lewiston, and Mrs. H. F. Dowst, Bangor; alternates, Mrs. Anna Sargent Hunt, Augusta, and Mrs. H. C. Beedy, Bangor. The subject of a reciprocity bureau was taken up. Mrs. Inez Blanchard was appointed chairman.

It was voted that the Federation banner which had been presented to the State be placed in a suitable case and forwarded to the Atlanta Exposition, Mrs. Arthur Brainard, of Augusta, being delegated to attend to the matter.

Mrs. Walter Flint, of Orono, Mrs. Keyes, of Farmington, and Mrs. Harriet McDonald, of Brunswick, were appointed a committee to ascertain the minds of the Maine Women's Clubs on the subject of the establishment of a State Board of Education.

"Women in the professions" was discussed. Mrs. Georgia P. Porter, of Oldtown, read an excellent paper on Women in Journalism and Mrs. Albert White, of Orono, read another paper written by Mrs. Dr. Fulton, of Ellsworth.

May Frances Stetson, of Caribou, read a paper on "Local History." Mrs. Frye took the chair and the committee on nominations reported the list of officers for the ensuing year, as follows:

President, Mrs. H. F. Dowst, Bangor.
Vice-President, Anna Sargent Hunt, Augusta.
Secretary, Mrs. H. M. Estabrooke, Orono.
Treasurer, Miss Bertha L. Soule.
Auditor, Mrs. Helen Coffin Beedy.

They were elected.

Gov. Cleaves was thanked for his graceful recognition of the clubs.

WANT EXTENSION

Of the Portland Electric to the River.

DEERING, Me., Oct. 11. To-night the Portland Electric Railroad Company petitioned the city council for a permit to extend its road to the Presumpscott River at Pride's Bridge, a distance of five miles, to connect with the steamer Santa Maria. This will be made a popular resort next season. The rails are already ordered. The work will commence immediately. Thirty thousand dollars will be expended in a pavilion, park, bicycle race course and other attractions.

STRUCK BY CLUB.

Farmer who Attempted to Thrash Hoodlums Killed.

ELLSWORTH, Me., Oct. 11. John Jordan, of Otis, aged 24, died this noon from injuries received in an altercation with some school boys Thursday, having been unconscious 18 hours. There was a large clot of blood on the brain, doubtless caused by a blow from a knotted club wielded by a boy named Salisbury, aged 17. The boys damaged some property belonging to Jordan, who is a farmer, and he attempted to thrash them, with the above result. Young Salisbury is in jail.

ACCIDENTAL SHOOTING

In the Woods but This Time the Man Killed Himself.

FARMINGTON, Me., Oct. 11. Amos Leavitt, of New Vineyard, aged 65, while in the woods hunting this morning, was shot through the breast and killed by the accidental discharge of his rifle. He was a prominent and highly respected citizen.

A NEW STEAMER

To be Built by the Maine Steamship Company.

PORTLAND, Me., Oct. 11. The Maine Steamship Company have decided to build a new steamer to run between Portland and New York. She will be built of steel, over 300 feet long with a carrying capacity equal to the Manhattan and Cottage City combined. The contract will be given out this winter or early in the spring and the steamer will be finished in 1897. General Manager Coyle authorizes the above statement.

ANOTHER FAILURE

In Portland Announced on Friday.

PORTLAND, Oct. 11. The Ellingwood Furniture Company has assigned with liabilities of $40,000. The assets are unknown but are thought to be enough when all the bills are collected to nearly equal the liabilities. The cause is poor business and sharp competition. They have been in business only a year.

RACES AT MYSTIC.

Mascot, Jr., Takes Unfinished 2.11 Trot Easily.

Some Surprises in Some of the Events of Friday There.

The 2.13 Trot Was an Exciting and Interesting Contest.

MEDFORD, Mass., Oct. 11. Mascot, Jr., easily captured the two heats in the unfinished 2.11 trot to-day at Mystic Park. Pedlar, the favorite at the start of the 2.18 trot, won the last three heats, greatly to the surprise of the spectators. An exciting race was the 2.13 trot. Fanny Wilcox scored one hundred feet in the rear in the first heat and won it by 50 feet. Fully 40 minutes were consumed in scoring for the second heat, during which Cheney, the driver of Fanny Wilcox, was fined three times, an aggregate of $100.

Many spectators denounced this action of the judges. The finish of the third heat was so close it was hard to decide between Fanny Wilcox and Caprice, but it was given to the latter.

The 2.11 trot, purse $600, 8 starters, Mascot, Jr., b g, (Elliot) won in 6 heats; Alcyo, b h, (O'Neil) second; Charley P., g g, (Bowler and McCoy) third. Best time 2.10½.

The 2.08 pace, purse $600, four starters, Barney, br g, (Brock) won in three heats; Paul, ch g, (Miller and Shillinglaw) second; S. R., ch g, (Brigham) third. Best time 2.12½.

To beat 2.50½, Percival, time 2.25¾.
To beat 2.39¼, Portia Wilkes b m, time 2.30.

The 2.18 trot, purse $600, 10 starters; Pedler, b h, (Moody and Walter) won in 10 heats; Katie Mac, b m, (Golden) second; Prince Lavalard, g h, (Isabel) third. Best time, 2.16¼ by Soudan, who took the fifth place; winner's best time, 2.22¾.

The 2.15 trot, purse $600 (unfinished), Fanny Wilcox, b m, (Cheney) won two heats; Caprice, b m, (Golden) won one heat. Best time, 2.13, by Fannie Wilcox.

SYMPATHY FOR CUBANS.

Law for Raising Military Force in United States Laid Down and expressions of Sympathy Discouraged.

WASHINGTON, Oct. 11. Inquiries have been received in considerable number of late at the Department of Justice as to whether it is a violation of the laws of the United States for American citizens to express sympathy for the Cuban insurgents in public meetings and to aid in fitting out expeditions to help them. In answer to one, Attorney General Harmon has sent this letter which represents the views of the administration on the subject:

"An organization of military force of any sort in the United States in aid of the the insurrection in Cuba would be in direct violation of section 5386 of the revised statutes of the United States, which provides for a fine not exceeding $3000 and imprisonment for not more than three years for every person who in any way takes part in such expedition or enterprise to be carried on from thence against any prince, State, etc., with whom the United States is at peace.

"As the United States is not only at peace with Spain, but has with her a treaty whereby the extradition of prisoners and many other benefits are secured, it behooves all American citizens who have respect for the laws and obligations of their country and regard for its honor to observe this law in spirit as well as in letter, to be neutral in word as well as deed. While there is no law to prevent American citizens from speaking their sentiments on any subject singly or together, taking such action as you mention in your letter, would in my judgment be discourteous in the highest degree to a friendly power, and tend to embarrass and obstruct the government in carrying out a determination faithfully to execute the laws and fulfil its treaty obligations."

FIRE RECORD.

Store House at New Haven Burned.

NEW HAVEN, Conn., Oct. 11. The store house of the New Haven Steamboat Company at Belle dock partially filled with baggage, was completely destroyed by fire this afternoon. The blaze was caused by spontaneous combustion. The loss on the building is about $2000 and damage to the contents, $8000. Both insured. The flames were fed by the oil which comprised a large part of the contents of the building.

AMUSEMENTS.

"A Trip to Chinatown."

The company that appears at the Opera House to-night in Hoyt's "A Trip to Chinatown" is composed of many of the New York cast. Laura Biggar and Burt Haverly the respective stars are "veterans" in the two leading parts, that of the dashing "Widow" and the hypochondriac "Welland Strong"; Octavia Barbe, the soprano of the company, is said to be a singer of beautiful method, possessing a voice of rare quality, who was last season soprano of the Whitney Opera Company in the opera of "Rob Roy" during its New York production at the Herald Square Theatre. She is a new acquisition to the ranks of farce comedy. Mr. Sydney de Gray, the baritone, is also a singer of ability and will delight the auditor with his free style and resonant voice in the music allotted to him, it is promised. The others are all well known and altogether will afford the listener a pleasant evening of song and mirth. There will undoubtedly be a large attendance.

The Edward E. Nickerson Comedy Company.

The Edward E. Nickerson Comedy Company, accompanied by his military band and concert orchestra, will begin a week's engagement at the Opera House Monday, October 14. The powerful drama, "A Kentucky Home," will be presented Monday evening, and will, no doubt, draw a large audience. A street parade will be given at noon, Monday. This company had a most successful engagement at Rockland last week, as the following from the Rockland *Tribune* shows:

Nickerson's Colossal Comedy Company has been doing a big business at the Farwell Opera House this week. Every night the hall has been crowded with enthusiastic audiences. The dramas presented were all of a high order. The selections of the orchestra have been particularly pleasing, the selections being rendered in a truly artistic manner.

Ariel Quartette.

At Y. M. C. A. Hall Monday evening the Ariel Quartette will appear before a good audience. There are, however, a few good seats left which may be obtained by early application. The following is an unsolicited letter from Rev. J. F. Tilton, of Belfast, Me:

Dear Mr. Eaton:

Possibly you would like to know how we enjoyed the concert by the "Ariels" Saturday evening. To say that we were pleased with them would but mildly express it—we were all charmed and delighted. We have had quite a number of quartettes and concert companies here in Belfast within the past three or four years, but I do not hesitate to say that none have given such universal satisfaction as did the Ariels Saturday evening. They are cultured and refined ladies in every way and their selections are of a very high order, and artistically rendered. I have heard words of the highest appreciation since their appearance Saturday evening. The success which they are everywhere winning is certainly merited. Should they come to Belfast again they would be greeted by a full house. They very kindly consented to sing for us at the church, which we appreciated very much. Thanking you for the favors you have shown me, I remain,

Very sincerely,
J. F. TILTON.

Notes.

It will probably be some time before Henry E. Dixey is again seen in a regular theatrical performance. At San Francisco he produced a monologue, which made such an extraordinary success that he has concluded to devote himself to it exclusively hereafter. He will take out, probably starting from San Francisco, a company containing a few thoroughly high-class specialties, and, thus assisted, will give a performance filling out the entire evening.

Irving and Terry are in Boston this week and next, playing next week the following bills: Monday, "Nance Oldfield" and "The Corsican Brothers;" Tuesday and Wednesday evenings and Saturday matinee, "The Merchant of Venice;" Thursday and Friday evenings, "Faust;" Saturday night, "Louis XI."

FEARFUL DEATH

Of Son of Former Passadumkeag Man in Minnesota.

We have received a copy of the Anoka County Union, of Anoka, Minn., Giving an account of the fearful death of Herbert Dougherty in Tilleston's mills near Kerrick, Minn., September 16th. The young man was the son of Mr. and Mrs. Charles Dougherty, formerly of Passadumkeag, Me., and now of Anoka. His age was nineteen. From the account it appears that Dougherty was in the discharge of his duties as usual that evening and that the fatality came to him after a thoughtful, almost heroic deed.

An employe of the mill became entangled in the shafting upstairs. Dougherty realizing the situation went down and released the man. Dougherty then proposed to his father that they put on the belt. The father took the higher pulley and the boy the other. The belt was loose and as Herbert was getting down his foot slipped and he fell on to the face of the lower part of the belt. This tightened it and he was drawn with great force around the pulley.

The lower part of his body and limbs were thrown into the arms of his father and his head was severed from the trunk. The family were of course nearly prostrated over the terrible calamity. He is the third child the parents have lost in the past two years. Herbert was the only son and was a bright, keen lad, very popular with his associates.

Lost in the Woods.

Two Boston men recently went into the region above the Katahdin Works after big game, but neglected to take guides and had no compasses even. The result was that one of them got lost and it was a day and a half before he was found again. He had been going about in a circle of about a quarter of a mile, only a short distance from camp. During his wanderings he came out on a road, built a fire and passed the night there on a bed of boughs. In the morning he started off again as he thought in the right direction, but walked around in a circle about the place where he built the fire. He was finally found in an exhausted condition by a searching party.

This Morning's Alarm.

A fire alarm was rung in at 8.15 this morning for a blaze in Palmer's shoe store in the old National House on Harlow street. The flames had burned down through the store floor and there was considerable smoke but the firemen soon extinguished the flames.

Strange Disappearance of a Man in Portland.

Creamery Building Being Erected at Damariscotta.

Cumberland.

The other evening Patrolman Ball captured Geo. B. Gillespie, a runaway boy from Lewiston, at the theatre in Portland. Young Gillespie, it seems, is stage struck and has a sort of a mania for following theatrical companies. He followed the "Peck's Bad Boy" company to Portland and was sent home by the police. This time as soon as the boy was missing his father suspected where he was and notified Marshal Trickey, hence his capture. Gillespie's father was informed of his son's arrest.

A Vermont couple who arrived at the Union Station in Portland on the early morning train the other day, had tickets for Portland and no farther. Upon arrival there the man started ostensibly to get tickets for their home, and his wife stood by him. All at once she discovered that he was gone. After looking around for some time in vain, she asked the assistance of a hackman and together they looked all about and through the train that the couple were about to take, but getting no trace of him, at last the deserted woman decided to go to the house of friends in Portland, Mr. and Mrs. John McKay. The husband carried off all the money they had and checks for their trunks. The wife is middle aged and the husband is considerably her senior. She left for home the next morning with funds supplied by her friends, promising to telegraph them should she learn the whereabouts of her missing husband, but of whom nothing has yet been heard up to the present date.

Hancock.

Bar Harbor *Record*: Newport and Lenox, with their big attendance of society people at golf and polo matches, should be a lesson to Bar Harbor for next season. Bar Harbor should get a hustle on and provide grounds for some of next autumn's matches here.

Kennebec.

The engineers have completed the survey of the boundary between Winthrop and Readfield involving Craig's Point on the easterly shore of Lake Maranacook where a summer colony was recently located. Both towns are deeply interested on account of valuable taxable property. The commissioners have not made their report but probably will some time in October.

Knox.

W. L. Gay, Maine State photographer, is in Camden taking views of Camden scenery for the State Board of Trade throughout the country and to exhibit at the State House at Augusta.

The ill luck of the Monhegan mackerel fishers of late has revived some amusing superstitions. Although many schools of mackerel have been seen, only one crew has made a paying catch, 12½ barrels and the fishermen have shown in various ways a practical faith in hoodoos. One believed his new oil-clothes were the cause of his ill luck and promptly threw them overboard. Another fancied that his hat was the Jonah, and tore it into threads. Again a dory in use was at fault, and one of the crew wanted to have it destroyed and regretted his poverty would not allow him to buy it so he could satisfy his whim by breaking the dory up. Perhaps the most striking performance was that of a steamer's crew who decided they were all Jonahs and left a school of fish to go ashore and smoke themselves—building a brush fire and hovering over it till the tears flowed from their eyes.

Lincoln.

Some of the moneyed men of Newcastle have bought a lot of land of Andrew Wilson on the Damariscotta side, and are erecting a creamery building, the first in Lincoln county. A splendid spring of water is on the land bought, from which to supply the building.

The Railroad Company are working a steam shovel in their pit at Muscongus Bay, hauling the material taken out to the long bridge at Wiscasset. A new station has been built at Muscongus, south of the bridge. The old station building will be moved to the new location, and be used as a freight house.

Somerset.

Work is pushed on the new shoolhouse at Madison as fast as possible in order to get it ready for use at the opening of the winter term. When completed this will be one of the finest school buildings in the county. No pains is spared to make it the best possible and all the modern improvements are used.

Madison can well look forward to a better state of things in the line of its manufacturing interests, for the old dam across the river that has done service for so long is being replaced by a stone one that cannot fail to do much better service. Already it is nearing completion, and a large crew of men are pushing things as fast as possible.

York.

Arthur Perkins, of Ogunquit, was shot in the thigh recently by the accidental discharge of a gun in the hands of Ed. Hutchins. Hutchins is sixteen years old, and Perkins is eighteen. A few years ago, Hutchins accidentally shot his sister, and disfigured her for life by a charge of powder which spoiled the sight of one eye, says the Biddeford *Journal*.

Mr. H. M. Beale, of East Corinth, was at the Windsor Hotel Friday.

Whig and Courier.

BY BOUTELLE BROTHERS.

All business letters should be addressed to Boutelle Brothers and communications intended for publication should be addressed "Editor of Whig and Courier."

The "Journal of Civilisation."

We have before us the current issue of *Harper's Weekly* published under date of to-day. In it the editor follows up his attack upon the New York Republican platform and makes this statement:

The *Weekly* has already pointed out the deceptions and falsehoods uttered in the Republican platform concerning the Wilson tariff bill, and concerning the return of prosperity as a consequence of Republican victories. It needs only to be added that with a revenue for September which exceeds the expenditures by more than $3,000,000 the Republican declarations that our industries are being annihilated and that the Wilson tariff is a "tariff for deficit" are comical. A little acquaintance with the revenue history of the Government, and a little more of honesty would have saved the platform-makers at Saratoga from that blunder.

There is a comical feature to this matter, or rather there would be if the evidence of intentional deception on the part of the editor of the *Weekly* did not [illegible] itself so strongly. Here is a paper styling itself the "Journal of Civilization" publishing under to-day's date an article attempting to arraign the Republicans for a misstatement of facts concerning the revenue of the Government which it contends are adequate to its expenditures and leave a surplus of more than $[illegible] when the Boston [illegible] of Thursday last published a [illegible] under date of Wednesday saying:

The excess of expenditures to-day was $[illegible] which increased the deficit for the month to $[illegible] and for the fiscal year to $[illegible]

The editor of the Journal of Civilization thus stands convicted of a very [illegible] attempt to deceive his readers. When he wrote the article in question he [illegible] have been ignorant of the treasury condition but having undertaken the vindication of the [illegible] bill of [illegible] he evidently realizes that he cannot afford to let any conscientious scruples [illegible] honest tactics and [illegible]. This incident is instructive for [illegible] additional evidence of the [illegible] of dependence is to be placed [illegible] Mugwump editors. Pretending to be entirely free from political bias and aiming to secure the best from all parties, they are as a matter of fact so bigoted in their championship of the Democratic party that they do not hesitate at stultification to carry their point.

This mongrel tariff is antagonistic to the [illegible] form doctrine announced in the [illegible] campaign. It has been denounced by Cleveland, Wilson and other leaders of the [illegible] tariff reform movement [illegible] so dear to the Mugwump heart as a complete abandonment of the principles for which they stood before the people. It is so opposed to the views [illegible] by the President that he refused to sign it although he lacked the courage to veto it. The representative organ of the party declared that it was the product of corruption and the [illegible]. Yet to-day in face of this [illegible] and regardless of the [illegible] it has worked throughout the country the "Journal of Civilization" [illegible] its champion even going to the extent of deliberate and carefully planned deception.

Cleveland Blight in Louisiana.

Within the last two months some six hundred nice sugar producing properties [illegible] have been forced under the hammer and sold for twenty five cents [illegible] referring to this condition of affairs Mr Hayden president of the Whitney National Bank of New Orleans said that the owners of the property relying on the good faith of the Government that the bounty voted by Congress would be paid ordered a lot of costly machinery for which they are now unable to settle and as a result have been obliged to sacrifice their possessions. [illegible] this little [illegible] the money would have been distributed in accordance with the provisions of the law the sugar producers would have been able to continue operation with new and improved machinery and the people would have received the benefit in lower prices. It [illegible] a hard object lesson for the people of Louisiana but if it serves to open their eyes to the real meaning of Democracy it may prove a blessing in [illegible]. For years they have been voting the Democratic ticket only to have the men they sent to Congress vote against the policy of protection so necessary to the development of the South.

The people should now rid themselves of the blind prejudice that has led them [illegible] in direct opposition to their [illegible] and strike hands with the party that has for its aim the development of American industries and the employment of American citizens, rather than the enactment of legislation that proves a godsend to the British manufacturer who is growing rich at the expense of the American people. The sugar producers of Louisiana are to-day suffering from the effects of Democratic stupidity. The same farce that has crippled them has cast a blight over the entire country which has also been suffering for the past two years. The remedy is in the hands of the people and will be applied in the next National election. Louisiana should join in the grand chorus.

Free Wool Theory Demolished.

The Boston *Herald* after struggling with the figures for some time remarks that the recent wool imports on their face support McKinley arguments, but not in analysis. The free traders will find it quite as easy to figure a surplus into the Treasury with the Government spending more every day than it receives as to convince the people that the free wool clause of the new tariff is not proving disastrous to the wool industry in this country. When American wool is shipped abroad at thirty-six cents a pound for the same quality that brought sixty for use in our own market before the enactment of this Democratic folly, the fact of itself answers the alleged argument of the free trade writers. Nor can it be successfully argued that the manufacturers are prospering as a result of free wool when they cannot afford to buy the American clip for about half the price they formerly paid for it, but let it go abroad to return again in the manufactured product to compete with their own goods. Indeed the short time that has elapsed since the passage of the new tariff has so completely demolished the free wool theories that there is already talk even in Democratic circles of restoring the duty.

Democratic Muddle in Ohio.

The merry war between the Democratic factions in Ohio goes on bravely. The situation in that State is peculiar. The free silver contingent is supporting Campbell, but it is bitterly opposed to Brice. As Campbell was selected by Brice to head the State ticket it is to be assumed that all factions regard him as a shifty politician with "views" that can be moulded to suit exigencies as they arise. But Brice not only ran the convention, he is running the campaign from a financial standpoint. He is supplying the sinews of war and has knocked the head out of his "bar'l." On Monday the committee appointed by the silver people several weeks ago met and declared their attitude during this campaign. They announced their loyalty to the State ticket, but came out flat-footed against any and all candidates for the Legislature who would not pledge themselves in advance to vote against any man for the Senate who was not a free silver man. This, of course, was a direct slap at Brice, who is the only candidate the Democrats have, and who is, besides, paying all the expenses of the campaign.

Such a statement coming at this time had a demoralizing effect on Chairman Anderson and Hon M. A. Smalley, the latter of whom handles the Brice end of the committee in looking after the legislators. The former at once abandoned headquarters and could not be found. But before he went he discharged a number of clerks whose services appeared to be no longer useful. Mr Smalley packed his grip and announced that he, too, was going away on business. All these things were brought about by the general understanding that Brice was not able to see the advantage of contributing to a vast campaign fund to carry the party through when another element of the party was equally aggressive in bringing about the defeat of another section of the ticket. According to the views expressed by some of the leaders it was "like pouring water down a rat hole."

It now remains to be seen whether the free silver men will take back tracks. Brice is not in this campaign for love. Unless his own candidacy is to run neck and neck with that of his man Campbell his particular interest in the election will cease. There is not much to the Democratic fight in Ohio now and if Brice abandons the contest nothing is left.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kincheloe,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

SULTAN ANXIOUS

To Have British Warships Withdrawn.

Resignation of Earl of Elgin—An Appeal from John Redmond.

Constantinople Oct 11.—The presence of the British fleet at S[illegible] at the entrance to the Dardanelles continues to cause anxiety to the Sultan and he has made a second appeal to Sir Philip Currie the British ambassador to secure the withdrawal of the British war ships. Thus far his appeal like the first one has been without avail.

This leads to the belief among the foreign residents that Great Britain intends to persist in her demands even though the other powers should declare themselves as satisfied with the concessions the Porte has announced itself as being willing to make.

The Sultan has given orders that [illegible] resistance shall be offered if the British squadron [illegible] to pass the Dardanelles.

Condemns Course Taken by Americans

Glasgow Oct 11.—G. L. Watson, the designer of the Valkyrie [illegible] representative of the United States [illegible]

[illegible] Mr Watson was [illegible] emphatic in his condemnation of the course taken by the American press which he declared had published untrue reports of the races and misrepresenting facts and distorting statements.

Speaking of the interference of craft with the races he said the committee boats and those [illegible] by other yachtsmen [illegible] trouble but what he termed the [illegible] excursion boat [illegible] unmistakably interfered, hampering the Valkyrie a great deal more than they did the Defender.

In the second race he said the Valkyrie would have beaten the Defender even if the latter had sustained no damage. A great many American yachtsmen had congratulated him upon the Valkyrie's having won a genuine victory in that contest and he was perfectly convinced that she had done so. The Defender [illegible] acknowledge was the better boat in the reach but upon no other point did she excel the Valkyrie.

Mr Watson expressed himself as sorry to see in a British sporting paper aspersions upon American yachtsmen and sportsmen generally, for this treatment was undeserved. He himself could say for American yachtsmen that the gentlemen conducting yachting on the other side were all honorable men and would never wittingly be guilty of committing an injustice.

The contest Mr Watson thought, was wholly unsatisfactory, since it left nobody the wiser as to the merits of the two boats than they were before they started in the first race.

The Defender was a better boat than the Valkyrie but in his opinion she was not the superior of the Valkyrie. He will be glad to tackle her again in ordinary regattas here or in American waters. The use of aluminum in the construction of yachts, he said, had been proposed to him 15 years ago, but he did not think it safe for a boat so constructed to cross the Atlantic.

COLORED MEN

Call for National Conference Issued.

Chicago, Oct. 11.—The call for the national conference of colored men to meet at Detroit, Mich., Dec. 12th, was issued here yesterday afternoon. The call states that, after considerable correspondence with prominent colored people throughout the United States, the conclusion has been reached by a committee, representing the colored race in Chicago, that the time has come when leading colored men should meet and deliberate upon principals and measures important to the welfare, progress and improvement of the race.

Among the questions to be considered are the disfranchisements of negroes, the denial of freedom, of locomotion to colored citizens and the existence of mob and lynch laws.

The call concludes as follows: "That great agency, the Republican party, which brought about his freedom and enacted laws for his protection as a citizen and a man will soon be in national convention assembled. Let us come together and formulate some proposition invoking the aid of this convention in the solution of the troubles which are now attracting the attention of our friends in Europe as well as in America."

[illegible] HALL

Pauline Hall the empress of song is celebrated the world over as the representative American beauty who has in the presentation of her new opera comedy Dorcas achieved the success of her eventful life. In a conversation with the representative of this paper she stated:

I have in my professional experience essayed a number of roles that have been more or less trying upon the physical and nervous system but in none that I have attempted have I ever experienced the terrific strain that the various characters which I assume in my new opera comedy Dorcas have subjected me. The assumption of one character in a presentation is generally conceded to be a sufficient undertaking for any one person but in Dorcas I assume three all different and I might say diametrically opposite to each other.

The terrific strain naturally resulting from such difficult work which is a new and direct departure from anything I have ever presented to the public before naturally had a very distressing effect upon me and I was constrained to seek some relief from the mental and physical exhaustion from my labor. After trying several remedies that were commended to me as being exceptionally good for the nervous exhaustion which I was subjected to, I was eventually induced to make a trial of Dr Greene's celebrated Nervura and the great relief which it afforded me was almost instantaneous in its effect and I have no hesitation in unqualifiedly endorsing Dr Greene's Nervura as the best tonic and restorer of a nervous and debilitated system of any remedy that I have ever tasted. It is remarkable for the rapidity with which its restorative qualities assert themselves. It is absolutely harmless and the instantaneous relief which it affords to the nervous and tired system is grateful in the extreme. I can readily understand why it is that so many hearty recommendations are given by people of prominence especially those in our profession, for Dr Greene's Nervura blood and nerve remedy and my own experience justifies me in recommending it as absolutely the best remedy which I have ever used

COLLISION OF TRAINS.

Narrow Escape from a Serious Accident.

No One Injured—Accident Was Caused by Frost in the Rails.

SPRINGFIELD, Mass, Oct 11. A rear end collision happened this morning in the Boston and Maine yards in this city, which narrowly escaped being a serious accident. The Owl express from Montreal of six cars, due here at 7 30, was about half an hour late and ran into a freight train which was also coming toward the city. The passenger train was moving about ten miles an hour and the freight four.

The passenger engine lifted the freight caboose from the tracks upon the platform car in front of it loaded with stone curbing, and a newsboy in the caboose was not injured. The pilot and headlight of the passenger engine were broken in, but none of the trucks left the track. The engineer and fireman of the passenger train jumped and were not injured nor were any of the passengers.

The accident was caused by the fog and frost in the rails. The engineer could not see the signal till too late, and the wheels slid upon the track. An investigation was held before Superintendent Sampson who estimated the total damage at $300

IMMENSE BUILDING

For Pugilistic Carnival will Seat 53 000 People

Hot Springs Ark Oct 11—Ninety [illegible] cars will be required to transport the lumber for the amphitheatre in which the pugilistic carnival will occur from Dallas to this city. The trains will begin to arrive here Monday. The big building will be constructed according to the original plans and will seat 53 000 people. Eighteen thousand tickets have already been sold. The headquarters of the Florida Athletic club with all its officers and attaches will be established here not later than Monday.

There is no change in the time for the contest or in the articles of agreement. The principal event will occur at 10 a m October 31 and minor contests the day following.

FREIGHT AFFAIRS

Secret Meeting Held to Consider Situation in the West

Chicago, Oct 11—There is but little change in the serious railroad situation now existing in western freight affairs. Chairman Midgley is utterly unable to [illegible] with the fighting lines and many of the lines are displeased with the working of many of the circulars sent out on the subject. [illegible] It was rumored yesterday that the [illegible] Wabash had put in a secret [illegible] Kansas City on fifth class freights [illegible] cents and 17 cents from there to Chicago [illegible] but no tariff to this effect has yet been promulgated.

Another [illegible] formed by the St Paul Chicago [illegible] meeting set for today with [illegible] of the [illegible] a division of traffic. It is reported that a secret meeting of the [illegible] officers of the Chicago-Western Railroads was held yesterday to consider the present desperate situation of rates west.

Although the proceedings are said to have been entirely informal yet it took [illegible] to discuss the situation. The [illegible] at times is said to have been quite animated and some of the executive officers gave vent to their feelings in [illegible] that was quite plain and could not [illegible]. The Union Pacific and the Rio Grande roads came in for a [illegible], but there was also much crimination and recrimination indulged in by [illegible] the roads represented.

All sorts of propositions for the adjustment of the existing troubles were made but none of them received much support. The executive officers appeared to be as badly rattled as the traffic officials and the attempt to bring about an agreement was given up in disgust.

The Burlington yesterday met all cuts to Colorado points by putting into effect a rate of 38 cents on all the six lower classes of freight. This was due to the action of the Wabash and Union Pacific roads offering a rate of 33 cents from St Louis. No doubt all the other lines will meet this cut of the Burlington and probably will put in a 25 cent rate.

The Northwestern passenger officials will meet this afternoon to form a pool on all passenger business between Chicago and Minneapolis. Fully three-fifths of the business is now done by scalpers the roads supplying them with all the tickets they want.

Passenger earnings have declined so rapidly as to force some kind of an agreement. From expressions given out it seems that the only thing standing in the way will be an amicable division of the business.

The Erie railroad has announced an excursion to New York on Oct 24, tickets good returning November 3 at a rate of $18 for the round trip. Chairman Donald has taken the matter up with the other lines to try to prevent the differential roads from meeting the Erie's unexplained action.

Claims are made that the Erie is acting in bad faith in putting in this rate after announcing that the excursion season was over. A St Paul telegram says "There is a car famine on every railway entering St Paul. This state of things is occasioned by the attempt to rush the great wheat crop to market. So serious has the situation become that several companies have ordered that no cars be permitted to leave their tracks"

HEARING RESUMED

On Removal of Receivers of Northern Pacific R R Co.

New York Oct 11—The hearing on the application for the removal of Thomas F Oakes Henry C Payne and Henry C Rouse receivers of the Northern Pacific R R Co appointed Aug 15 1893 was resumed before Judge Lacombe in the United States Circuit court today, an effort made this week in Milwaukee to bring about an amicable agreement between receivers Edward H McHenry and F G Bigelow recently appointed by United States Judge Jenkins of Wisconsin and Andrew F Burleigh the receiver appointed by United States Judge Hanford at Seattle Wash having failed

It is conceded on all sides that such an agreement is most desirable to protect the interests of all holders of bonds and stock of the company and with this end in view Judge Lacombe last Thursday adjourned the hearing until today. Elihu Root suggested that nothing be done towards accepting the resignation or removal of Oakes Payne and Rouse until after they had rendered an accounting to the court of this circuit

An adjournment was asked for by the Farmers Loan and Trust Co in order that a further attempt might be made to arrive at an agreement between all the parties interested in the suit. Mr. Root said he would not oppose such a motion because he fully believed that more time was needed for bringing about a desirable agreement regarding the receivership of the road

Judge Lacombe said that he certainly should not think of finally disposing of a case in which such material and important interests were involved without allowing all parties however remotely interested in the suit to be heard whether they were parties to it or not. He then adjourned the hearing for one week

STATION ENTERED

By Masked Men—Telegraph Operator, a Woman Frightens them Away

San Francisco, Oct. 11—The Southern Pacific station at Baden, ten miles south of this city was entered last night by two masked men who requested the telegraph operator, Mrs Leva Marshall to hand over all the money there was in the office. Mrs Marshall immediately reached for her revolver, but one of the robbers anticipated her movement and opened fire upon the plucky woman

His first bullet struck her in the left arm, just below the elbow. Unmindful of her wound Mrs Marshall returned the robber's fire. Alarmed at the fusilade the intruders fled. Six bullets were sent after them by the woman, but it is not known whether any of them were effective. The injured woman was conveyed to San Francisco on a special engine. Her wound is not dangerous

SURPRISED THEM.

That Gov. Clark will Try to Prevent Fight at Hot Springs.

San Antonio, Tex., Oct. 11—Corbett and Manager Brady were much surprised today upon reading the press despatches from Hot Springs and Little Rock to learn that Gov. Clark will seek to prevent the pulling off of the fight at Hot Springs. They thought that the matter was settled that there would be no executive or judicial opposition to the fight taking place there.

Corbett stated this afternoon that he would continue his training as he is convinced that the Florida Athletic Club will make good their promise to pull off the fight on the scheduled date.

He says that if it cannot take place at Hot Springs there are plenty of quiet spots within easy reach of Dallas where he and Fitzsimmons can settle the question of supremacy, without interference. Manager Julian, who is here, states Fitzsimmons will leave Corpus Christi immediately for Arkansas.

FIRE RECORD.

Dwelling and Double Tenement House Burned

BRADFORD, Vt Oct 11. Fire at North Haverhill, N. H., last night, destroyed the dwelling house and barns of W. W Coburn and a new double tenement house of N. C. Wright. The fire originated in a shed adjoining Coburn's house. The cause is unknown. Coburn's loss is $2,000, insured for $1,600. Most of the furniture was saved. Wright's loss is $1,000, insured for $800

DOUTNEY FINED

For Slapping Face of a Reverend Gentleman

Salem Mass, Oct 11—In the district court this morning Thomas N Doutney the temperance Evangelist was fined $20 for assault on Rev W A Thurston by slapping his face on the street at Beverly yesterday. He appealed

Doutney pleaded guilty and his counsel asked to be heard on the matter of provocation. He stated that the defendant was earning a livelihood as a temperance lecturer and had been at work in Beverly when stories were circulated affecting his moral character and designed to cut off his means of livelihood and knowing that Thurston had circulated the stories and meeting him in the street hot words had ensued and in the heat of passion Doutney had struck him in the face with his open hand

Chief Haskell asked that if the question of the stories about Doutney was to be gone into a continuance be had as he would be prepared to prove the truth of the stories. The court said he did not propose to enlarge the inquiry to go into the question of the truth or falsity of the stories. After hearing both Rev Mr Thurston and the defendant the court said that while the physical injury was not severe he would take into account the public insult of an assault on the street accompanied by profane language and impose a substantial fine

UNION PACIFIC

Plan Prepared for Its Reorganization

Boston Oct 11—The Boston News Bureau says: "The Union Pacific Railway Co stands in a fair way of reorganization this year or the early part of next year."

Boston interests in Union Pacific confirm the report that a plan has been prepared and the Mercantile Trust Co, John [illegible] & Co and the Gould estate of New York are prominently interested in the plan. Boston interests in the reorganization will be taken care of by the Ames estate and the Old Colony Trust Co.

The plan has been fully underwritten by parties in interest. The reorganization includes both the main line and the Kansas Pacific but the main line alone. A reorganization of the branch lines will not be undertaken until after the main line and the Kansas Pacific reorganization is completed. The plan will be brought before congress at the coming session. The reorganization committee has not been completely formed hence names are not ready for announcement but it will be fully as strong as the former committee and will represent all parties in interest including representatives of the various sub-committees.

The previous plan gave the government first lien on the road and was considered in this respect defective but under the proposed plan figured on a proper basis of earnings, the government will be placed on better terms than its position as creditor warrants.

WHEAT CROP IN OHIO

Millions of Bushels Short of an Average Crop

COLUMBUS, Ohio, Oct 11. The State Board of Agriculture's bulletin shows that the wheat crop of Ohio for this year will give a yield of 14 000,000 bushels short of an average crop of the State, and 24,000,000 less than that of last year, which was the largest in the history of the State

ABSURD REPORT

That an Attempt Had Been Made to Assassinate President Cleveland

BUZZARDS BAY, Mass, Oct 11. The report published this morning that an attempt had been made to assassinate President Cleveland is an outrageous fake from beginning to end. It is the second story of a similar character that has originated in the West this season. The President is all right. When a representative of the New England Associated Press called at 8 30 this morning he was enjoying his breakfast with his family and was in the best of health and spirits, and had already planned for a day's fishing. The family pronounced such reports too absurd and ridiculous to even talk about them

HELD FOR ARSON

Gowell and Nelson, on Charge of Burning Poor Farm Buildings

ALFRED, Oct 11. Eugene E Gowell and James Nelson, of Lebanon, arrested for burning the poor farm buildings at Lebanon on August 12th, 1894, arraigned before Trial Justice Drew this morning, plead not guilty, and the case was continued until October 18, the respondents recognizing in one thousand dollars bail.

Condensed Despatches.

In the police court Friday Walter Mathews, of Rollinsford, was held in the sum of $400 for the Supreme Court, charged with bringing into the State Annie Nottell, a woman with no means of support. The woman is in a delicate condition and she alleges that Mathews caused her ruin. Mathews was unable to secure bail and went to jail.

CITY AND VICINITY.

Work has been in progress for some time building a dam at W S Gould's mills on the Dexter stream. The season of low water gives an excellent chance to do the job

James McDonald, who was arrested at Eastport Monday for assaulting William Sears, an aged citizen of Eastport, made his escape from the police station, by sawing away the planks on top of his cell and the outer door being open he soon disappeared. He had been tried and was kept in custody awaiting the arrival of a friend with the necessary money to pay the fine

Mr W J Ryan, who is now making his thirteenth annual tour through Maine, selling copies of the Robert B Thomas and Maine Farmers Almanac for the year 1896, is totally blind, but his loss in that particular does not prevent him from making his way in the world. In his native city of Portland, where he is well known to everybody, he is so familiar with the streets that he finds his way around unaided. Along his route through eastern and northern Maine he has a large list of patrons

A meeting of several of the principal sardine manufacturers in Eastport was held at the Quoddy Hotel Wednesday afternoon to discuss the present situation of the sardine industry there and see if a settlement could be made at once. Although the meeting was private it is learned that they will try to bring the strike to a close at an early date. It is said that if the owners of the factories at Lubec who have adopted the cut prices can be induced to return to the old wages all those in Eastport will do the same. If not then the men agree to close up as the employes will not return to work at a reduction. If Lubec reduces the wages of its help the owners here claim they must in order to put up fish at a profit. The result of the factories closing is seriously felt along the business center and a dull fall trade is expected. Every steamer west carries many workmen away in search of employment and if this continues for long there will be a scarcity of men if the factories should open. It is expected this week will end the disagreeable affair but in what way remains to be seen

The Piscataquis Observer explains that it was not so much sympathy for the prisoner, as regard for the county finances, that induced several prominent citizens to become sureties in $200 each for the appearance when wanted of Andrew Morrison, the principal witness in the Chesuncook shooting affair in which John Roderick lost his life at the hands of William Demond. And so Morrison is no longer boarding at the county's expense

The Shore Line

The Calais correspondent of the St Croix Courier writes: It was noticed that the work of surveying the so-called Milltown route of the Shore Line railroad ceased almost as soon as it was begun and this calmed the fears of many who thought it possible that the road might take that direction. Undoubtedly there were those who for personal ends wanted the road to come in the Milltown route but from the best assurances it can be stated that the road will certainly take the Red Beach direction. This route was provided for in the contract and the president, director and the county commissioners will listen to no other proposition even though the cost by this way may be one hundred thousand dollars more. The citizens of Calais as a whole so far as can be learned would not be satisfied with any other route and as this city is [illegible] one fifth of the county and bills they certainly should have considerable to say

Stockton has witnessed many base ball games this summer but nothing ever equalled Wednesday's game. Some one proposed that two nines be formed from the large and small men of the village to be known as the Fats and Leans. No one who had played a game this summer should be admitted but there were no restrictions as to age. As a consequence two of the oldest nines that ever played here were ready for business at the time appointed. Their ages ranged from about 30 to near if not quite [illegible]

It is doubtful if many of them ever played a game since the days of "three old cat," but they were full of zeal and if when they ran they did not make as good time as younger players they got there all right. They made up in strength what they lacked in grace

There were many funny incidents during the game and everybody laughed till they could laugh no longer

The game closed after five innings on each side—19 to 21 in favor of the heavy weights. At the close of the game bouquets were presented to the captains by Capt Isaac Park of Searsport the winning side being rewarded with the largest bouquet. Capt Park's remarks were very appropriate and full of spice

Cheers and hornblowing proclaimed the contest over and the crowd dispersed in the best of humor

One reason why women are so generally troubled with some derangement of the distinctly feminine organism is that as girls they learn nothing about their own physical make up. Parents are waking up to the importance of education of this kind and young women are becoming more and more able to take care of their health.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at once. Dr Pierce's Favorite Prescription promotes regularity of all feminine functions makes strength and builds up a sturdy health with which to meet the trials to come. The "Favorite Prescription" is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs

"I have been a sufferer from female weakness for six years. I grew worse had severe cutting pains in left ovary also in left side and stomach. The pain in left side was constant. I would have fright spasms previous to monthly period and when the spasm would leave I would suffer from severe soreness all over and could bear nothing to touch me. I also suffered from severe headaches burning pressure on brain which almost caused me to be insane. I could not lay my head down without smothering. My face was poor eyes looked dead wasted in flesh. I was constipated and suffered severe pain when bowels would act. I could not eat for the fullness in region of stomach. I had tried three of the best doctors here but they only gave me temporary relief. I had given up all hope of ever getting well again. At last I concluded to give Dr Pierce's Favorite Prescription a trial. I have taken two bottles one of the Golden Medical Discovery and one of Pellets. I have not felt any signs of my old disease headache all gone menses regular without ache or pain. Indeed I feel like a new person. Yours truly

OBSCURE AILMENTS THAT AFFECT HUMANITY

An Eminent Specialist's Idea on the Kidneys, and Their Uses. How They Purify the Blood and Keep us in Health.

Curing the Kidneys Makes us Well When We are Sick.

We are often sick and don't know what is the matter with us

It is probably our kidneys

We lose our strength and ambition, suffer from headache, dizziness sallow complexion, nervousness etc

We need new blood

We don't get it because our kidneys are sick

If we cured our kidneys we would get new blood new health new strength because it is our kidneys that purify our blood

Dr Hobbs Sparagus Kidney Pills will cure the kidneys

They contain a concentrated extract of the Asparagus found in no other medicine or prescription and made only under a special process by the Hobbs Medicine Co

This extract of Asparagus is what makes Dr Hobbs Sparagus Kidney Pills so successful

A well known physician Dr William Watson Hinish made a careful and thorough test of Dr Hobbs Sparagus Kidney Pills in his practice

Here is his report on the result

HOBBS MEDICINE CO

GENTLEMEN—It affords me unqualified pleasure to report that after having at your solicitation tried the Sparagus Kidney Pills which you have recently introduced to the profession I am entirely satisfied with the results obtained

As is well known the kidneys are the principal excretory organs of the body and I have long been satisfied that many of the obscure ailments which afflict humanity are traceable to kidneys which fail to properly perform their functions

I [illegible] have tried [illegible] with varying degrees of success all the different remedies which are alleged to have a specific action upon the kidneys but have never found anything that was entirely satisfactory until I began the use of Sparagus Kidney Pills

I think you are to be congratulated upon having been able to produce a combination of remedies which have such a happy effect and I take pleasure in recommending your pills to my brother practitioners who I am sure will find in them a remedy that will fully meet the indications presented in all cases of the kidneys as well as in all diseases which owe their origin to [illegible] which [illegible] depend upon an unhealthy condition of the kidneys

Yours very truly
W W HINISH

FREER FROM ANXIETY.

A man's life will be FREER FROM ANXIETY by having life insurance as he knows that in event of his death it will prove an anchor to his family against want and hardship Further more the improved plans adopted by the companies of late years afford excellent opportunities for providing for old age Many young men and young women owe their education to the wise provision made for them by life insurance It provides therefore not only against want and for old age but it is a potent factor for the promotion of the best interests of society If any one having a family is inclined to the belief that life insurance fails of application in his case, let him take a sheet of paper and write on one side arguments in favor of life insurance and on the other arguments against it In comparing results he will find many arguments in favor of it and none against it

The Grange Fair held at Town Hall, Dexter, Wednesday and Thursday, was blessed with good weather and the results are very satisfactory to Dexter Grange It is understood the the Grange has a handsome sum in its treasury, the results largely of the receipts from its annual fares The balance will be considerably increased this year No premiums are paid The exhibits this year were full and of excellent quality, and the attendance large.

A queer and serious illness is reported at South Orrington where a man named William Douglass, who has been working in an ice house all summer much of the time without wearing a hat, suddenly was taken with terrible pains in his head, and then became unconscious The doctor who was called pronounced the case incurable and said that the long period of working in the ice house with his head unprotected had chilled the man's brain and had the same effect as a sunstroke

"No, we can't very well get along without it," said the man in the hardware store when questioned about liquid blacking, "but using it in the store where the stoves are sure to be cold and using it in a household where they are very likely to be warm, if not hot, is quite a different thing. It is not safe for housekeepers and the recent terrible illustration of its danger in another Maine city is not the only one that could be cited A woman was using it on a hearth that was barely warm when her gloves, the brush and her apron burst into a flame."

While Mr O. S Ham, of Lewiston, was in Aroostook county on a trip, he met one day Mr Jerry Skillinger, a native of West Poland Maine, who went into the wilderness of Maine in 1837, 58 years ago, and who on this day in question, ate his dinner with four generations of the family all living together in the same house and eating every day at the same table. You may find four generations living in the same town or city, but not often will you find them living in the same family and same house. Mr. Skillinger has a number of his sons and daughters living near him, and they own some beautiful and prosperous farms.

The steamer Sappho is to be continued on the route between Bar Harbor and Mt. Desert Ferry until November 1st when she will be withdrawn and the Sebenoa substituted and in view of the fact that this winter, as in past seasons, there is likely to be large quantities of lumber used in the construction of new cottages requiring transportation between the Ferry and Bar Harbor, in order to relieve the steamer of such freight the Maine Central management will place in service a scow to be propelled by tow, so that hereafter very little lumber will be received on the steamers with the view of adding greater comfort to passengers in making their trips.

Mr. Henry F Clarke, who died at Westbrook, Thursday, at the age of 50 years, was once general baggage agent of the European & North American railroad in this city. While in Bangor he checked the first piece of baggage from Halifax to San Francisco At that time, over 20 years ago, it was thought impossible to check baggage so long a distance, but he proved that it could be done with the Thomas check, and sent a valise containing a can of water from Halifax harbor, checked to San Francisco and return. At San Francisco the water was turned into the Pacific ocean and then filled from that harbor and the valise was returned to Halifax, where the water was turned into the Atlantic The return trip was made in about eight days. From Bangor he went to Cumberland Mills, where he has been the station agent for a number of years. His death is much regretted by many friends.

ACCIDENTALLY SHOT.

F. P. Barnard, Bangor & Aroostook Station Agent at Houlton, Killed Friday.

Word was received in this city yesterday afternoon announcing the death of Mr. F. P. Barnard, station agent of the Bangor & Aroostook railroad at Houlton by the accidental discharge of his rifle. Mr Barnard and his wife had been out on an outing trip and had been occupying a caboose car which had been stationed at Summit station, having it comfortably fitted up

Mr Barnard had been engaged in hunting for big game and yesterday afternoon while ascending a short ladder to enter the car the trigger or hammer of the rifle caught in the ladder and the rifle was discharged. The bullet entered his heart, killing him instantly

The railroad men were notified and everything possible was done. The body was taken to Houlton. Mr Barnard was about thirty years of age and very efficient in the discharge of his duties. He was formerly in the service of the New Brunswick railroad and was located at St Andrews Much sympathy will be extended to the sorrowing wife

Work on the the B & A Railroad

In addition to the building of the Ashland branch on the Bangor & Aroostook railroad line improvements are being made in various places making considerable work along the road

The buildings, including stations, freight houses, etc, at Ashland Junction, Smyrna Mills, Masardis and Ashland, are being rapidly constructed and will soon be ready for use. The turn table pit at Ashland is nearly completed and the foundations for tanks at Ashland and St. Croix are completed and work on the tank at Ashland and St Croix Lake are completed and work on the tank at Ashland is in progress

Work on the Ashland branch is proceeding well and 13 miles of track have already been laid which brings the iron to St Croix Lake. The steam shovel and a big ballast crew are working toward Ashland from the Junction and 4 miles of the road are fully ballasted

Friday a hand ballast crew of 120 men started out eight miles and commenced work At St Croix lake there will be a delay of three or four days after which the work will be clear for Ashland. A third ballast outfit will start out as soon as the rails are laid for 27 miles

The work of removing the old 56-pound rails between Milo Junction and Oldtown is going rapidly on and they are being replaced by the heavy 70 pound rails, the standard of the road. The old fashioned straight fish plates are discarded and the heavy angle plates, also the standard of the road, are being used The rails are now distributed to within three miles of Oldtown and the rails are laid to within about six miles of the same place

An Unconscious Pose

An occurrence yesterday forenoon on the down Bangor & Aroostook train amused the passengers in the smoking car One of the passengers was a sportsman from away who had been in the woods after big game and he was evidently sleepy and tired as he keeled over in one corner of his seat with his still lighted cigar in his mouth and his slouch hat cocked over one ear, and took a snooze. Beside him on the seat lay his snap shot camera which he had been using in the forest.

While he was in the land of nod another sportsman approached and slyly taking up the camera pointed it at the sleeping man, pressed the button and the camera did the rest. And the sleeper still slept on. When he awoke it was remarked to him that he would have been a good subject for the camera and he agreed saying that he wished he could have taken a picture of himself. When he comes to develope those snapshot pictures he will "have some fun with himself."

WORTHY YOUR CONFIDENCE

The success of Hood's Sarsaparilla in conquering scrofula in whatever way it may manifest itself is vouched for by thousands who were severely afflicted by this prevalent disease, but who now rejoice over a permanent cure by Hood's Sarsaparilla. Scrofula may appear as a humor, or it may attack the glands of the neck or break out in dreadful running sores on the body or limbs. Attacking the mucous membrane, it may develop into catarrh or lodging in the lungs lead to consumption. Come as it may, a faithful course of treatment with Hood's Sarsaparilla will overcome it, for working upon the foundation of all disease, impure blood, the system is clarified and vitalized, and vigor, strength and health restored to the body.

A COMING EVENT

A New Play by Mr. Nate A Tefft Soon to be Presented

A coming event that will greatly interest the people of Bangor and vicinity is the presentation in the Opera House during the first week in November of a new comedy drama written by Mr Nate A Tefft, of Brewer It is entitled "The Gloves" and will be given under the auspices of the Bangor General Hospital Association. Competent critics who have examined the manuscript of the piece and have seen the rehearsals make very favorable comments on it and it is expected to prove an entertaining success

The cast is composed chiefly of local talent and the very best selection has been made with a view of the fitness of the participants to their roles. A feature of the presentation will be the introduction of three new songs, the words written by Mr Tefft and the music composed by Mr Edward A Skinner One of these songs is to be dedicated to the ladies of the hospital association and it is shortly to be published by the White-Smith Co, of Boston. The cast is as follows

Dr Stubbs, LL D	Charles F Tefft
Dick Mason	Harry M Stanton
Jack Dellford	Nate A Tefft
Prof Wade	Edward E Fooler
William	Walter H Mills
Mrs Dr Stubbs	Miss May Sullivan
Belle Ashton	Miss Virginia May Hing
